

Safety Connection Mobile

Protect Your Faculty, Staff and Students

Safety Connection Mobile puts access to duress signaling in the hands of faculty, staff and students, providing a more reliable, accessible, and cost-effective alternative to outdated blue light phones and boxes.

Everbridge is a trusted critical event management partner to the top research universities in the USA, providing solutions to keep campuses safe from both physical and digital threats.

In today's unpredictable world, Everbridge is giving you more ways to safeguard your community members:

- + Mobile SOS calling with live video & audio capture
- + Error-proof communication with pre-scripted templates
- + Incident communication for responders
- + Single Sign On
- + SMPP based SMS text messaging
- + Voice activated custom safety phrase to trigger SOS
- + Apple Watch compatible
- + Duty of Care for global travelers

Safety Connection Mobile

Protect Your Faculty, Staff and Students

MULTIPLE SAFETY OPTIONS

- + Location Check-in
- + Safe Corridor
- + Emergency call to 911 or campus security
- + SOS Panic button
- + Ability to add custom buttons to provide easy access to campus information
- + Option to turn off undesired features

SAFE CORRIDOR

Traverse campus safely while leaving a breadcrumb trail. If you don't check-in, an SOS is automatically triggered with your location information.

SOS PANIC BUTTON

Automatically notify campus security with your geo-coded SOS location and transmit live audio and streaming video of the surrounding area.

KEEP PEOPLE INFORMED

Safety Connection Mobile helps:

- + Automate communications and collaboration for mustering purposes and evacuation plans
- + Provide mass notifications and targeted outreach via multi-modal communications
- + Instantly trigger a personal SOS alert to campus security

IMPROVE PERSONAL SAFETY

Safety Connection Mobile provides SOS functionality that allows individuals to request assistance directly from their smartphone in times of need. Our mobile app changes your smartphone into a secret virtual security guard to help faculty, staff and students:

- + Stay safe when on campus or abroad
- + Stay informed of school alerts
- + See Something...Say Something

INCIDENT ZONES

Automatically send multi-modal alerts to people upon entry into an active geofenced incident zone.
