...COLLEGES AND UNIVERSITIES RELY ON EVERBRIDGE.

Without a safe learning environment, colleges and universities cannot deliver on their institutional mission. Everbridge provides enterprise software applications to improve campus response for critical events to keep students, faculty, staff, and visitors safe, while keeping the college or university running. Maintain Clery Act compliance with the ability to provide timely warnings and deliver emergency notifications to an entire campus via multimodal notification and reporting capabilities.

Everbridge can meet the Safety and Security Challenges of Your Institution

MASS NOTIFICATION

A secure, scalable and reliable application to notify the entire campus community or specific groups before, during and after critical events. A simple opt-in feature improves your reach with customized keywords; multi-modal messaging options target the right people; predefined templates can be grouped together by event to enable message sending within seconds; gather leadership onto conference bridges instantly.

SAFETY CONNECTION

Ensure a safe learning environment by protecting students, faculty, and staff while instantly activating processes via the Everbridge mobile application. Quickly locate and communicate with the entire campus community with incident zones, two-way emergency communication, and location detection. Provide panic button, blue light phone and chaperone capabilities in the palm of their hands.

CRISIS MANAGEMENT

Orchestrate all crisis response activities, teams, resources and communication, while providing real-time visibility. With all stakeholders working from one application, you can be confident in knowing that your response plans are getting executed, can be modified on the fly as needed and that leadership is aptly informed.

ENGAGE

Use high impact, visual communication tools that bypass email and reach every student, staff member or visitor through desktop alerts, screensavers or digital signage.

VISUAL COMMAND CENTER

Visualization and orchestration engine of the Everbridge Critical Event Management (CEM) platform that provides situational awareness through a single pane of glass to better mitigate or eliminate the impact of critical events across multiple campuses. Identify assets at risk and collaborate with key stakeholders when determining the appropriate action.

RISK CENTER

Built on the VCC platform, proactively monitor and analyze risk intelligence and resources around all-hazards information collection and analysis, enhancing your ability to monitor and respond to potential threats throughout each campus.

CONTROL CENTER

Correlate events from disparate safety and physical security systems into a common operating picture. Get actionable alerts, next step actions, and automated reporting to better manage risks, ensure compliance with operating procedures and support your business continuity. Manage all point solutions and resources on a single standardized user interface.

DIGITAL WAYFINDING

Easily navigate the campus as a visitor, potential student or new staff member through precise turn by turn navigation inside and outside. Add additional points of interest attachments or videos to enhance the travelling experience on campus.
