YOU FACE CRITICAL EVENTS EVERY DAY...
WHEN RISK STRIKES, DO YOU HAVE THE TOOLS TO RESPOND QUICKLY AND DECISIVELY?

TAKE COMMAND OF RISK

FIND OUT HOW
POWERFUL COMMAND CENTER SOFTWARE

VISUAL COMMAND CENTER IS THE LEADING CRITICAL EVENT MANAGEMENT SOFTWARE TO POWER YOUR COMMAND CENTER.

MANAGE CRITICAL EVENTS

Visual Command Center helps visualize and orchestrate critical event management (CEM). When a risk is detected near an asset or employee location, Visual Command Center automatically generates an alert and provides tools to assess and take immediate action to mitigate the impact. This empowers your team to know early, know the situation and know to act.

- **ELIMINATE THE NOISE**
  Configurable alerts let you know when risks have the potential to harm your employees, facilities, or supply chain.

- **GAIN CONTEXT**
  Integrate data from internal and external sources to gain situational clarity.

- **RESPOND FASTER**
  Understand who or what could be impacted with just a few clicks in your browser.

- **ACT WITH CONFIDENCE**
  Take effective and efficient action with the tools and information you need at your fingertips.

- **IMPROVE EFFICIENCY**
  Stop manually combing through news and data feeds to understand developing events.

As an integrated part of the Everbridge Critical Event Management platform, Visual Command Center delivers enhanced situational awareness and efficiency for managing critical events.
IMPROVE COMMAND CENTER EFFICIENCY AND EFFECTIVENESS

PROTECT YOUR ORGANIZATION’S PEOPLE, FACILITIES, SUPPLY CHAIN, AND OPERATIONS WITH VISUAL COMMAND CENTER.

GAIN A COMMON OPERATING PICTURE
Bring together information and capabilities from all of your organization’s data sources and security systems into one platform, easily accessed through your browser or tablet.

PROTECT EMPLOYEES AND TRAVELERS
Safeguard employees wherever they work or travel through improved awareness of their locations and an integrated view of the risks that could threaten them.

ACHIEVE SITUATIONAL AWARENESS
Gain a complete and shared “boots on the ground” understanding of the operational risks your organization faces so that you can manage day-to-day challenges and disasters.

MAINTAIN BUSINESS CONTINUITY
Achieve efficient and effective incident response by detecting risks earlier and leveraging tools that support quick assessment and action to minimize the impact.
DELIVERING REAL VALUE

VISUAL COMMAND CENTER DELIVERS REAL VALUE TO SOME OF THE LARGEST ORGANIZATIONS ON THE PLANET.

IMPROVING EFFICIENCY AT MICROSOFT’S GSOCs

With Visual Command Center, Microsoft’s Global Security Operations Centers integrates 60 unconnected systems and data sources into a single, interactive platform that gives instant access to critical information needed to evaluate risks and take action.

SUPPORTING VMWARE AS IT KEEPS EMPLOYEES SAFE

VMware uses Visual Command Center to protect employees across the globe. The command center software platform constantly monitors and analyzes threats relative to VMware’s employees and operations so that the security team can focus on exactly what matters.

AND MANY OTHERS

By helping organizations in the Global 2000 transform their command centers, Visual Command Center enables them to excel at managing operational risk.

“VISUAL COMMAND CENTER SPEEDS UP OUR REACTION TIME. IT’S OF HUGE BENEFIT, NOT JUST TO THE GSOC BUT TO OUR PEOPLE IN THE FIELD.”

Steve Rodgers
Director, Microsoft Global Security Operations Centers
