EVERBRIDGE

Keeping People Safe and Organizations Running. *Faster.*

Everbridge's market-leading, software-as-a-service (SaaS) Critical Event Management (CEM) Platform enables businesses, governments, universities, and healthcare providers to quickly and reliably aggregate, correlate, and assess threat data; locate people at risk and responders able to assist; automate the execution of pre-defined communications processes; and track progress on executing response plans. Everbridge provides the most comprehensive enterprise resilience solutions for managing digital and physical critical events in an increasingly volatile and uncertain global threat landscape, while delivering significant return on investment (ROI) through increased revenue and reduced costs.
