

Solution Overview

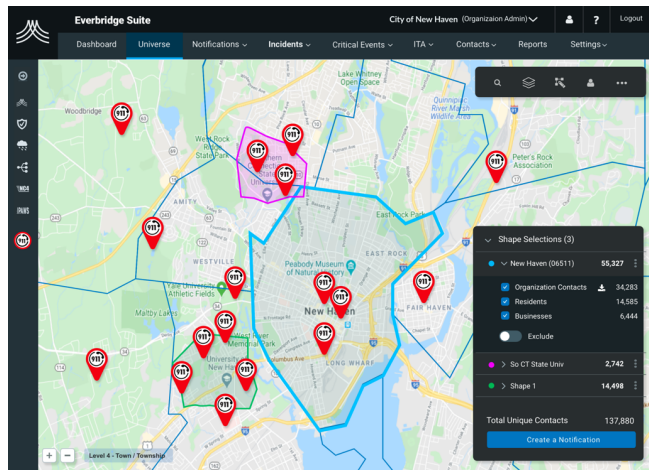

[Everbridge, Inc.](#) (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate organizations' operational response to critical events in order to Keep People Safe and Organizations Running™. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events including IT outages, cyber-attacks or other incidents such as product recalls or supply-chain interruptions, over 5,700 global customers rely on the Company's Critical Event Management Platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes through the secure delivery to over 100 different communication modalities, and track progress on executing response plans.*

What is Everbridge 911 Connect?

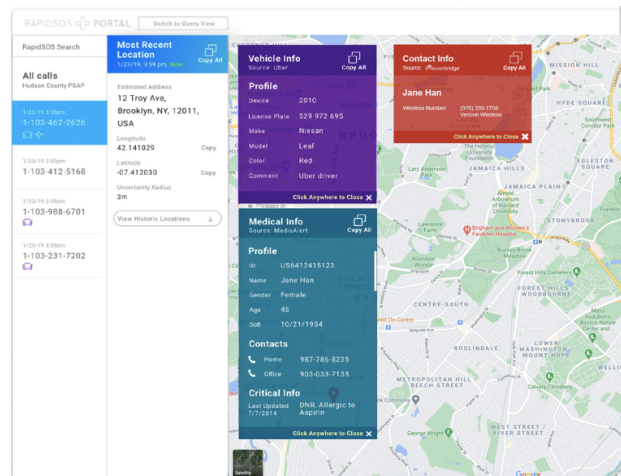

Everbridge 911 Connect, a RapidSOS Ready™ solution, provides public safety alerting authorities and-ECC dispatchers with life-saving incident-specific information about the caller that they are not receiving today (ex. name, device location/contact address, additional information such as special needs, medical condition, photos, etc.) to accelerate emergency response and improve its efficiency. Should an incident evolve and impact more people, authorities have the ability to send mass notifications to a targeted area from one integrated critical event management platform.

How can Everbridge help?

- Empower a more efficient, expedited emergency response by providing ECC dispatchers with immediate access to Everbridge 911 Connect and data from the RapidSOS emergency response data platform at the time of a 911 call.
- Allow ECCs to gain visibility into developing crisis situations by providing visual situational awareness of 911 calls in the jurisdiction.
- Provide an easy way for a jurisdiction's ECC, Emergency Management Department or other authorities to issue critical notifications to the population during emergencies.
