

INTERACTIVE VISIBILITY: THREAT VIEW POWERED BY NC4

Set up custom alerts based on proximity to key facilities, severity, and type of NC4 Risk Center™ incident

Quickly identify and notify your impacted contacts using phone, email, SMS text, and mobile push notifications

GATHER SITUATIONAL DETAILS AND RESPOND TO RISK WITH THE POWER OF NC4 AND EVERBRIDGE

Threats know no organizational boundaries. Hurricanes, bombings, power outages, cyber-attacks, and infrastructure events remind us that all organizations around the world – private and public – are vulnerable to both manmade and natural disasters. Corporate security professionals tasked with protecting their organization's physical assets and health, safety, and welfare of employees must have the skill, the intel, and the communications

technology needed to quickly assess and disseminate risk-related information.

Threat View combines the world-class threat assessment intelligence of NC4 with Everbridge's critical communication suite and global reach. Threat View gives security executives, business continuity professionals, and crisis managers the tools needed to respond to risks and improve corporate resiliency.

INTERACTIVE VISIBILITY: THREAT VIEW POWERED BY NC4

KEY FUNCTIONALITY

- + Access detailed NC4 Risk Center™ global threat assessment information from within the Everbridge interface
- + Set up alerts based on proximity, severity, and type of NC4 Risk Center™ incident
- + Visualize on a map active alerts in context with your Everbridge contacts
- + Quickly communicate with potentially impacted contacts using map-based targeting
- + Rapidly notify contacts in the surrounding area using phone, email, SMS text, and mobile push notifications
- + Identify missing employees and employees in need with real-time polling
- + Provide ongoing situation updates to executives as an incident progresses
- + Assemble and collaborate with response team members instantly using 'one-click' conference calls

While most incidents cannot be prevented, they can be better managed and brought to a quicker resolution with preparation, situational awareness, sound decision-making, and communication. Having the relevant facts and information around the incident sooner and the ability to quickly communicate key information across your organization is a sound investment for companies of any size.

WHAT IS NC4 RISK CENTER™?

NC4's team of highly skilled analysts leverage sophisticated technology and thousands of diverse information sources to provide early warning of incidents at the neighborhood, regional, national, and international levels. Analysts evaluate incident intel in real-time, reporting all incidents that could threaten business assets, operations, and/or traveling employees. This can include wildfires, hurricanes, earthquakes, explosions, fires, hazardous materials spills, interstate highway closures, plane crashes, and power outages. NC4 Risk Center™ promptly alerts customers to risks that may impact them - posing a threat to employees' life and safety, physical assets, or continuity of business operations.

About Everbridge

Everbridge is a leading unified critical communications platform trusted by corporations and communities of all sizes that need to reach the right people for immediate action, collaboration, and decision-making. Connecting millions of people and internet-connected devices, the company provides reassurance that secure, compliant messages are delivered, locally and globally, received and responded to, no matter the recipient's location. Everbridge is based in Boston, Los Angeles, San Francisco, Beijing and London.
