

# Everbridge Public Warning Traveller Alert

Connecting governments with their travelling citizens when it matters most.

Everbridge Traveller Alert offers government agencies the ability to identify citizens travelling abroad to assist them before, during and after disasters by providing useful information with trusted and reliable guidance and in their national language. Designed for official use by those responsible for the safety of citizens overseas. For example: Embassies, Ministry of Health, Foreign Ministry or Public Health Departments.

## FEATURES

### Role Based Access

Administration console can accommodate an unlimited number of users with discrete roles and responsibilities for multiple government agencies.

### Ease of Use

The system is easy to use by officials and doesn't require any registration, activation or maintenance on the travelling citizens' behalf.

### Two-Way Messages

Send two-way messages via SMS to travelling citizens across the globe in a secure manner and monitor responses.

### Status Response

Instant display of recipients' response and options for the sender to act on those responses.

### Privacy & Security

Data privacy is factored in as all sensitive information remains within the telecom network.

### Flexibility

Alerts can be easily initiated via web browser or a mobile handset.

### Statistics

The system can help in both day-to-day work and in emergency preparedness by providing the capability to statistically monitor the number of citizens travelling to any country of the world all year round.

## EASY TO USE FOR GOVERNMENTS

- + Simple graphical administration console
- + Send messages via web browser or mobile handset
- + Real time situational awareness
- + Built-in SMS gateway to enable one click SMS alerting
- + 2-way engagement with citizens overseas
- + Flexible deployment options: On-premise, Software as a Service or hosted

## EASY TO USE FOR CITIZENS OVERSEAS

- + No opt-in required
- + No mobile app
- + No download

# Everbridge Public Warning Traveller Alert

Connecting governments with their travelling citizens when it matters most.
