5 Things to Know about Everbridge's FedRAMP Authorization

FedRAMP

The Federal Risk and Authorization Management Program (FedRAMP) government-wide program provides a standardized approach to security assessment, authorization, and continuous monitoring for cloud products and services. FedRAMP facilitates the shift from insecure, tethered, tedious IT to secure, mobile, nimble, and quick IT. FedRAMP authorized vendors like Everbridge offer cloud services that allow Federal Agencies to securely and quickly meet their mission needs.

1. Simplify the Buying Process

Purchasing a FedRAMP Authorized solution saves cost, time, and staff required to conduct redundant Agency security assessments. FedRAMP Authorization certifies that Everbridge has passed the most rigorous security and risk management review process available to Federal Agencies.

2. Use Data to Increase Employee Safety

Secure software means employee data can safely power your incident response can continuity plans. Everbridge empowers you to use dynamic location data to protect off-base facilities, traveling employees, and distributed teams.

3. Improve Situational Awareness

Threat feeds provide real-time intelligence situations that could endanger your employees. Weather, social, and risk data is securely integrated into the Everbridge Critical Event Management Platform.

4. Respond to IT System Downtime and Degradation

Everbridge is not just an employee safety tool. The IT Alerting product automates the communication, collaboration, and orchestration for faster IT incident resolution and delivery.

5. Cloud Benefits Over On-Prem Solutions

The 2018 Federal Cloud Computing Strategy — Cloud Smart — is a long-term, high-level strategy to drive cloud adoption in Federal agencies. This initiative exists because cloud computing offers agencies faster deployment, minimal system housekeeping, regular updates, and mobile accessibility. Everbridge Improves ability to respond to critical events during an agency network outage, disruption/cyber incident because all communications are performed outside the agency network through the Everbridge SAAS cloud platform.
