

# SECUREBRIDGE FOR PUBLIC SAFETY

Secure messaging for law enforcement agencies using personal communication devices

## SEND SECURE MESSAGES FROM PERSONAL COMMUNICATION DEVICES

Law enforcement organizations deal with sensitive information every day. In certain situations, radio communications can be overheard and may reveal valuable information, or unsecured text messages could be intercepted or forwarded. Whether it's information about crimes, potential suspects, inadvertent or intentional release of this information could threaten the safety of law enforcement officers and the general public. For these reasons it's critical to provide secure communications for law enforcement.

**SecureBridge** is a messaging app, designed to support Law enforcement agencies, to keep communications between officers and the command center secure. It's easy to use, works across multiple platforms, including iOS and Android, and operates on a cloud-based model, which allows for local or cross-state communication.

### KEY BENEFITS

- + Communicate securely via triple encrypted technology
- + Turn communication devices into powerful secured tools
- + Limit vulnerabilities if a device is compromised, all sensitive data can be wiped remotely
- + Lower IT costs as app works across multiple platforms
- + Simple as making a phone call or sending a text

## KEY FUNCTIONALITY

### SECURE EXCHANGE OF WORDS, DATA OR GRAPHICS

- + Allows you to share nonpublic and other sensitive text, data or graphics with officers or the command center

### DON'T WANT TO TYPE? TRY OUR VOICE RECORDER!

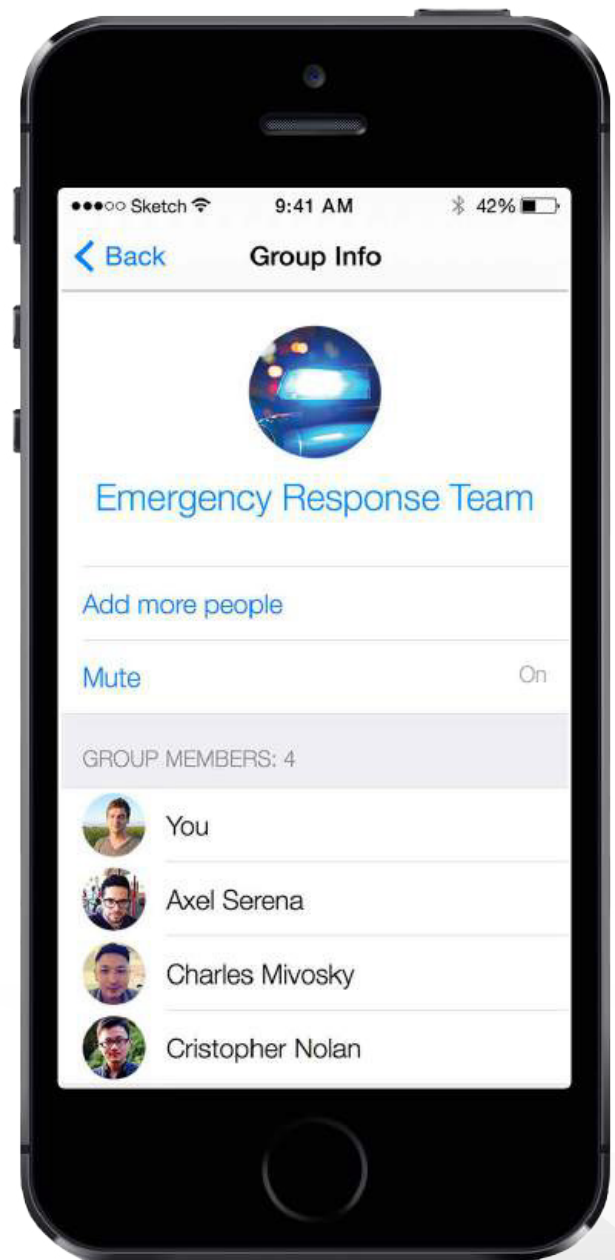

- + All you need to do is hold down the button, speak and recipients will hear you on the other end - it's that easy. The voice recorder feature is even faster than texting, and if someone needs to refer back to your voice message, they can play it over and over again.

### CONFIRM MESSAGE RECEIPT

- + Know when officers or the command center has read - or received - your message. You will also be able to see when someone's in the middle of a reply, optimizing communication flow.

### TEXT ONE OR TEXT ALL

- + Send messages to one party or an entire department at once along with images, graphics and videos. When someone replies, everyone sees it.

## About Everbridge

Everbridge is a leading unified critical communications platform trusted by corporations and communities of all sizes that need to reach the right people for immediate action, collaboration, and decision-making. Connecting millions of people and internet-connected devices, the company provides reassurance that secure, compliant messages are delivered, locally and globally, received and responded to, no matter the recipient's location. Everbridge is based in Boston, Los Angeles, San Francisco, Beijing and London.
